CAPT. RITSON-BENNETT INSPECTS LOCAL CADET CORPS

The Bassano Cadet Corps paraded on Friday morning, June 5th, for their annual inspection.

After the opening ceremonies the boys dedicated their first rifle exercise (Reverend Arms) to the Bassano boys who have already given their lives overseas. This exercise was performed in a very impressive manner.

The inspecting officer, Capt. E.H. Ritson-Bennett, spoke in very high terms of the Corps efficiency, especially their steadiness on parade and physical training.

Ten of the boys were presented with medals, which they had won in the Dominion of Canada Rifle Association Shooting Competition for Cadets.

Capt. Bennett, speaking to the boys after the inspection, complimented them on their smart and soldierly appearance and expressed the hope that they will continue their excellent work.

The following boys received the D.C.R.A. medals:

R. Walsh, W. Stiles, P. Walsh, Ross Young, Ted Rednancy, Stiles, V. Greenwood, Geo. Smith, P. Chulick and D. Fraser.

To earn these medals, the Cadets must shoot an average of 90 or better.

RENOVATIONS CONTINUE IN BASSANO

The Royal Cafe and the Orpheum Theatre are added to the list of those who are improving their property.

The Royal has had the old foundation removed from around their building and a new one of cement is being poured now.

The Theatre is undergoing a new job. The pillars and decorative rates are being done in white and red in brown.

BUY WAR SAVINGS CERTIFICATES REGULARLY

Personals

LAC Larry Edwards is home on leave.

R.C.A.F. recruiting Officers were in Bassano on Wednesday.

Miss M. Maxwell visited Edmonton over the week-end.

Mr. J. T. Davis was a Medicine Hat visitor this week.

Mr. E. Schalkel is spending a few days with his parents here.

Miss Jean Wallace spent the week and visiting in Calgary.

Members of the Bassano Masonic Lodge motored to Husar on Monday night to attend a meeting there.

Mr. J. Blunsome of Rostown Saskatchewan is a patient in the Bassano Hospital.

Miss Grace Krill and Miss Irene Lindsay of Strathmore spent Saturday in Brooks.

Mr. Bert Colough spent the holiday week-end with friends at Lacombe.

Miss Kathleen Smith returned to Calgary after visiting her parents for two weeks vacation.

Mr. J. Brown and Mr. Schoe motored to Husar on Tuesday evening to attend Lodge there.

LAC Ralph Arrison received his Wings at No. 7 S.F.T.S. at MacLeod this week.

Dick Walsh was very unfortunate enough to break his collar bone while he was confined to the Hospital for some time.

The young folks at the Dam and a few of their friends enjoyed a weiner roast on Saturday night.

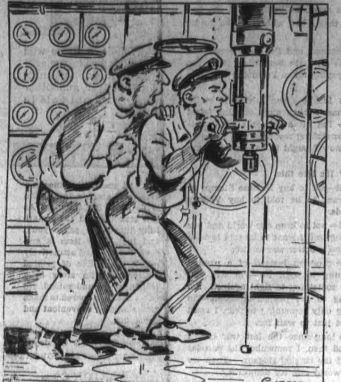

Mr. and Mrs. Athey and children of Duthess, Tom Cook and George Sker of the R.A.F. Medicine Hat, were Sunday visitors at the Fraser home.

Miss Connie MacBeth received word that she will be transferred in about two weeks to the branch at Red Deer, Alberta. Connie has been three years in the bank here, first as stenographer and then as teller.

LAC Bill Snape who has been spending his leave in Bassano returned to Edmonton on Sunday. He expects to be posted to a flying school. Mrs. Snape will remain in Bassano indefinitely.

"Ah, come on—give me a chance! I joined the Navy to see the world too!"

BASSANO DEFEATS GEM 8-5 IN GAME, SUNDAY

Thrilling Game of Ball Displayed By Both Teams in Bassano.

Sunday afternoon saw the local Ball Team take the field against the Gem Team and with a very exciting ball game 8-5.

Bassano took a 3-0 lead in the second inning on runs by B. Marquardt, J. Hayes and J. MacLean.

Gem came back in the fourth to score two runs. Laughlin and Marquardt crossing the plate. Bassano on a run by R. Shaffer, lengthened their lead again by a score of 4-2.

In the sixth inning J. Hayes and J. MacLean again scored to make the score 6-2. Robinson added another run for the Gem team in the seventh but Marquardt and J. Hayes brought in two more for Bassano in their half of the same inning.

Gem added two more runs, but in the eighth and one hit the ninth to make the final score 8-5 in favor of Bassano.

The game was very well played with few errors and proved at times very exciting.

Slight arguments only enlivened the game, and helped to keep both teams hustling.

This game tied up the league standing with Bassano and Gem being tied for top place. Each of these two teams have won three games and lost one.

The next game will be played next Sunday at the back water when Makepeace and Bassano will battle for place in one of the last scheduled games.

HALF INCH OF RAIN HERE

The rain that started to fall on Wednesday night brought welcome relief from the two days of hot dry weather. At noon on Thursday one-half inch of rain had fallen, but the sky was still overcast and prospects pointed toward more precipitation.

According to the local dry land farmer, crop prospects are the best in years. In the irrigation more rain and warmer weather is required to germinate the crop.

The weather forecast is for more rain and cool weather.

MAKEPEACE (By Our Correspondent)

Miss Edith Schalkel of Vancouver is a guest of Mrs. L. Conley.

Mrs. Tierney and son Joe spent the week-end in Calgary.

Mrs. MacBeth now a resident of Tudor, was a guest in the neighborhood and had dinner at E. Bray's.

Mr. and Mrs. Seely of Duck Lake were dinner guests of their son Mr. and Mrs. E. Seely.

Around \$8.00 was raised from the Ponce held last Friday night. The dance was in aid of the Junior Aid Club.

Mrs. Gordon Walker and son Lee are visiting at Mrs. Walker's parents, Mr. and Mrs. Kuckle.

Mrs. Lester Conley spent from Wednesday to Friday visiting her sister, Mrs. Briggs in Calgary.

The ball game played at Countess on Sunday was a very lively affair. The score was 8-5 in favor of Countess.

Mr. and Mrs. Ralph Arrison left on Monday for Calgary.

We hear that Olive has gone into the moving business. At least he will take a contract to move anything that is loose at both ends.

The Red Cross held at Mrs. Larsons was well attended. \$2.00 was turned in as tea money and the following articles: 4 yards printed material, 3 pairs Childrens rompers 1 sleeveless sweater, 1 pair women's socks, 3 childrens skirts, 1 Turtle neck sweater, 5 pairs childrens pyjamas, 2 pairs men's pyjamas.

Plans For July 1st Well Under Way

The July 1st Celebration in Bassano this year promises to be the biggest and the best yet. A well balanced program including Horse Racing, Baseball, Men's Sports and a Stage Show will be held.

This year will see the largest Race Card to be held in Bassano and years with 14 different races listed for the day. The Card is featured by the Free For All and the one and a half mile Relay but it also includes such races as the Indian Buffalo Race, Roman Race, Boys' and Girls Races and the Ladies Race. This will give a full afternoon entertainment to those that love the track.

Sports in the form of Baseball and Men's Sports will be held in the afternoon and the early evening. The Men's Sports have eight different competitions which include Pole Vaulting, 100 yd. Running, Broad Jump, Half mile Race, 200 yard Dash, Shot Put and High Jump. A total of \$50 in prizes is offered for these events. There will be three prizes in each competition.

Baseball for those who love the diamond will be held in the late afternoon starting at about 5 p.m. The teams who have yet to be decided in league play, will be the league finalists. This league comprised of Gem, Makepeace, Countess and Bassano has dashed out very good ball this year and a hard fought battle is in order for the day.

During the afternoon for those who prefer mild entertainment, a stage show will be held on the platform opposite the grandstand. Singing, dancing, acrobatics and comedy acts will be featured as well as the circus. Mr. and Mrs. Davis and his six piece Orchestra.

The Carnival will be in progress in the afternoon at the grounds and will allow those with the gambling to try their luck at the different booths.

The evening will give fun and entertainment for all when the carnival will be held in the late afternoon starting at about 8 p.m. The evening will be the main attraction. The Curling Club Building, Mrs. Davis and his six piece orchestra will provide the music for the dance and all those with the urge to dance will be able to have their fun on the modern dance floor.

For those who don't care to dance the carnival will be the main attraction. All the old favorites as well as the new ones will be on hand to try your luck on. So... Come One Come All to the biggest day of celebration that Bassano has ever had.

Truck Thief Caught After Long Chase

After a long chase from Bassano through Gem to Hutton Countess Allen of the local R.C.M.P. caught up with Norman Curtis, a Medicine Hat and arrested him. He was wanted on three different charges including breaking, entering and theft of a place of business. Curtis took a half ton truck with out the owners permission in the Hat and drove to Vauxhall. Here he exchanged this truck for another one and also broke into a place of business there. He then continued his journey to Duchess and then to Bassano.

In Bassano he had part of \$11.00 that he had in either changed into bills and then left for Gem.

Constable Allen was notified of the break-in at Vauxhall and also about the stolen truck. He made inquiries in town and then started in pursuit of Curtis. He traced him to Gem and from there to Hutton. At Hutton Curtis was arrested at about 1:30 a.m. Thursday morning.

Curtis was brought back to Bassano and held in the R.C.M.P. station. P. to the Hat. He will stand trial on three different charges there. Norman Curtis has a long string of previous convictions.

Born at the Hospital

To Mr. and Mrs. Ralph Marquardt Bassano, a son on June 11th, 1942.

To Mr. and Mrs. Paul E. Donovan of Patricia, a son on June 11th, 1942.

Save Gasoline By Coasting Methods

Under wartime conditions when conservation of gasoline is essential, attention is being drawn to the economies that can be effected through coasting.

Officials of the Alberta Motor Association point out that, according to an estimate of the Industrial Acceptance Corporation, coasting is saving Australians motorists "as much as 20 per cent" even more, in gasoline consumption.

Even without free wheeling and such devices, coasting resorted to judiciously is relatively safe and saves considerable gasoline. Long, gentle grades, free of sharp turns and intersections, are ideal coasting cases.

The motorist not familiar with the procedure, the following suggestions may be of value: Just before starting a safe coasting descent, the clutch should be disengaged, and the ignition shut off simultaneously. The gear set lever may then be moved to the neutral position, and the clutch permitted to re-engage.

An eye should be kept on the speedometer to make sure that the car does not become level and the car decelerates to approximately 25 miles per hour, the engine should be started, the clutch disengaged, the gear set lever moved into high, and the clutch then engaged.

re-engaged, the engine, of course, being rev'd up to approximately the speed at which it would be operating if driving the car at the velocity at which it is coasting.

OTTAWA LETTER

Members of the House of Commons often specialize on certain subjects. Some speak only on labor problems, some only on farm problems and others only on monetary theories. One member has earned the name of the official "wag" whenever he speaks he tries to get a laugh. He will interject such remarks as: "Do you believe in the Darwin Theory?" The problem would be settled if all the Japs were transferred to Toronto" or "Is the Honourable member for it or against it?" The leader of the Opposition gave a hint by telling a story of the late President Coolidge. This man of few words went to church. When he returned his wife asked him what the sermon was about. He replied, "Sin," "well said his wife, what did he say about it?" "He is against it," replied the President. Another member might be called the "dinner-bell" because he talks so often and so long that many members go out rather than listen to him. This week when one member rose and, for thirty minutes gave fulsome flattery to the Minister of Finance, an Opposition member called him the official backscratcher of the administration.

The United Kingdom is still the only market for export wheat but the Government will buy 280 million bushels instead of 230 million as of last year.

The price will be 90c instead of

News of the Week

FROM THE

Warfare Prices and Trade Board

BEEF CONTROL PLAN

Under a new plan of the Warfare Prices and Trade Board to ensure adequate supplies of beef at home, while giving producers the equivalent of the export price for their cattle, Canada is now divided into fifteen zones. In each zone, wholesale prices will be set by a food administrator, Hon. Gordon Taggart. These prices will be adjusted from time to time with seasonal variations. Retail prices will be based on the laid down prices, plus the mark-up established by the retailer for similar cuts and quality during the basic period.

All of Alberta south of the 55th parallel, excluding stations on the C.M.R. west of Edson and Lovett and on the C.P.R. west of Blackhead are placed in zone 12. The above exempted stations are placed in zone 15 which includes all the interior towns in British Columbia.

SAVING ON WIRE FENCES

Because a single strand electrically charged wire on light stakes around a square mile of pasture gives a saving of \$8,460 feet of barbed wire weighing 3,200 pounds, over an ordinary five-strand barbed wire fence. The Warfare Prices and Trade Board has arranged a priority for manufacturers of electric controllers, for use on such fences.

To give a sharp harmless shock to any animal that touches the wire each enclosure must have a control—a mechanical device that operates a condenser coil from a six dry battery.

Over 25,000 electric fences were built in Canada last year, and with the heavy demand for cattle and hogs, more will be needed this year. The saving in barbed wire in fencing a square mile of pasture gives enough to make many a Jap or German, or provide steel enough to make 100 Bren guns. There is a saving too on the number and strength of posts required.

CATCHING A THIEF

Mr. Walter S. Campbell, Regional Representative of the Warfare Prices and Trade Board in Alberta, points out the ration regulator makes it compulsory that books must be put reduced before gasoline is given out. Service station operators must satisfy themselves that the vehicle for which gasoline is requested is the one described in the ration book.

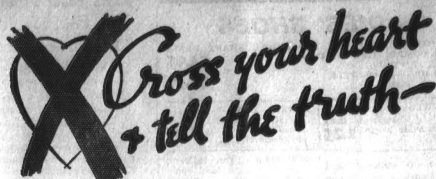

There are penalties for non-observance of the regulations and there are advantages to observing them. A stolen automobile was identified by a sharp eyed woman attendant in Alberta two weeks ago when the thief tried to get gas for it without producing the coupon book.

70c of last year, for the initial payment. A minimum price of 40c for barley, 45c for oats and \$2.25 for flax has been fixed. All prices are on the Fort William basis. Tons delivered on an acre will be paid on land taken out of wheat and sowed to barley, flax, rye, peas, corn, clover, grasses or summer-fallowed. The payment is based on the reduction of wheat acreage in 1942 as compared with the 1940 acreage.

It is likely that the P.F.A. payments will only apply to a townships if the yield is eight bushels per acre or less. The increase of 20c per bushel will bring an additional \$1.60 per acre, or more, as compared with last year. War requirements call for more hogs, eggs, milk, beef, wool, barley and flax, etc.

The bonuses that have been paid have helped many farmers to tide over the early days but they have been sadly disappointing to some on account of the slowness of payment. Much correspondence, many inquiries, discrepancies in figures and misunderstandings of the regulations. It is felt by many that, as the money is coming from the taxpayers, that a good price should be paid by the Government for farm products and a system of Crop Insurance should be started to save the farming industry. This together with a vigorous irrigation policy to construct more dugouts, stock watering reservoirs, irrigation and water conservation schemes would go a long way toward making a happy, contented, prosperous people occupying real home like homes.

Sincerely,
F. W. Campbell.

BRITISH BUY CANADIAN WHEAT

The British Food Ministry has reached an agreement with the Canadian Wheat Board for the purchase of 120 million bushels of wheat. This purchase was made in the form of October and December futures. When delivery is sought the future contracts are turned over to an exporter to the quantity desired for immediate shipment.

In announcing this deal to the House of Commons, Hon. J.A. McKinnon, minister of Trade and Commerce, said he had asked the British Food Ministry to permit him to announce the price. This has never been done in the past but frequent requests have been made for same. It is probably in excess of 80c per bushel.

Last year the British Food Ministry purchased 240 million bushels of Canadian wheat, all in the form of futures.

SEED GROWERS TO MEET

E. I. D. NOTES

Any contract holder whose water rates are not up should read this very carefully.

Under recent legislation anyone whose water rates become more than one year in arrears will be liable to automatic cancellation of his contract.

This will become effective at the end of the present year. This word of warning is being issued in ample time to enable those who are behind with their rates to arrange to put the same in good condition before the end of this year.

SOME FIGURES ON
THE PRODUCTION OF
COMMERCIAL ALCOHOL

In view of the present shortage of gasoline it is timely to review what has been done by experimenting with the use of farm products in making alcohol for motor fuel. Since the last war this study has continued in order to find an additional outlet for agricultural products and to provide an home produced fuel to replace imported gasoline.

Alcohol, when added to gasoline, to the extent of 10 to 25 per cent is effective in raising the Anti-Knock properties. Tetra ethyl lead is now imported for this purpose at a cost of two million dollars.

Alcohol can be produced as cheaply as gasoline as the cost of alcohol at the distillery would be from 35c to 45c while gasoline has been produced at the refinery much cheaper.

Power alcohol can be produced from corn, coal, barley, wheat, potatoes and sugar beets. If wheat is available at 50c per bushel, alcohol can be produced at from it at 40c per gallon. One bushel of wheat will produce two gallons of alcohol. Potatoes used to produce alcohol at 40c per gallon would need to be purchased at 162c per bushel.

An attractive material for producing alcohol is the sugar beet. Unlike what the price does not much. A ton of sugar beets will produce 30 gallons of alcohol. Alcohol can be produced, valued at 40c a gallon from sugar beets at \$5.00 per ton.

Canada, in 1939, used 800 million gallons of gasoline. If 10 per cent of this was replaced by alcohol 80 million gallons would be required. A plant to produce 10,000 gallons daily would cost about \$700,000. In locating a plant a place where residual feed could be used should be chosen. This feed is worth about \$20 per ton.

The blending of the alcohol and gasoline could be done wherever the greatest fuel economy was found to be.

At ordinary times the sale of motor alcohol has not been very successful except where it has been made compulsory by law but, under the present emergency conditions, the picture is changed. Also alcohol is useful in the making of war material and the problem is one that should receive serious consideration.

The figures used here are copied from a pamphlet by C.Y. Hopkins, Department of Chemistry, Ottawa.

Go North, Young
Women; Go North

Rocky Mountain House Junell—Thomas Tilford who has joined the American Construction crew working off of Dawson Creek, was home for a few days last week and on his return will go to a camp 50 miles north of there. He reports that the future is fine but that there is a great dearth of women there. At every dance there is twelve thousand and soldiers and only fifty girls.

For Sale

One Jackson hay fork, apply Mrs. B. P. Cowan, Countess, Alta.

WANTED—Kitchen Girl at the Imperial Coffee Shop, Bassano.

FOR SALE—Cook stove in good shape. Apply Mrs. J.R. Strother.

FOR SALE—Cold spring makes almost new, extension table, buffet, 6 chairs, rocker, 2 hot water tanks, phonos, post hole digger, crowbar, and a number of sport jars with tops. Apply Mrs. Brichin, Bassano.

STRAYED—Onto the premises of Mrs. B.P. Cowan of Countess, one black and white yearling heifer, no visible brand, horns.

Hanson Quotes
Poetry To King

Conservative House Leader Hanson, replying to Prime Minister Mackenzie King's speech on the National Resources Mobilization act amendment, in the house of commons Wednesday, quoted eight lines from Gilbert and Sullivan to "describe the Prime Minister's attitude and action here accurately and aptly than any words of mine could do."

These are the lines he read:

"A complicated gentleman allow

me to present

Of all the arts and faculties that

He's a great arithmetician who can

—demonstrate with ease

That two and two are three, or five,

or anything you please;

An eminent logician who can make

it clear to you

That black is white—when looked

at from the proper point of

view."

A marvelous philologist will un-

derstand to show

That 'you' is but another and a

neater form of 'me'."
